4.3 On-board training in the use of davit-launched liferafts shall take place at intervals of not more than four months on every ship fitted with such appliances. Whenever practicable this shall include the inflation and lowering of a liferaft. This liferaft may be a special liferaft intended for training purposes only, which is not part of the ship's life-saving equipment; such a special liferaft shall be conspicuously marked.

Records

The date when musters are held, details of abandon ship drills and fire drills, drills of other life-saving appliances and on-board training shall be recorded in such log-book as may be prescribed by the Administration. If a full muster, drill or training session is not held at the appointed time, an entry shall be made in the log-book stating the circumstances and the extent of the muster, drill or training session held.

Regulation 19
Operational readiness, maintenance and inspections

This regulation applies to all ships. The requirements of paragraphs 3 and 6.2 shall be complied with, as far as is practicable, in ships constructed before 1 July 1986.

Operational readiness

Before the ship leaves port and at all times during the voyage, all life-saving appliances shall be in working order and ready for immediate use.

Maintenance

1. Instructions for on-board maintenance of life-saving appliances complying with the requirements of regulation 52 shall be provided and maintenance shall be carried out accordingly.

2. The Administration may accept, in lieu of the instructions required by paragraph 3.1, a shipboard planned maintenance programme which includes the requirements of regulation 52.

4 Maintenance of fall

Falls used in launching shall be turned end for end at intervals of not more than 30 months and be renewed when necessary due to deterioration of the falls or at intervals of not more than five years, whichever is the earlier.

5 Spares and repair equipment

Spares and repair equipment shall be provided for life-saving appliances and their components which are subject to excessive wear or consumption and need to be replaced regularly.

6 Weekly inspection

The following tests and inspections shall be carried out weekly:

1. all survival craft, rescue boats and launching appliances shall be visually inspected to ensure that they are ready for use;

2. all engines in lifeboats and rescue boats shall be run ahead and astern for a total period of not less than 3 min provided the ambient temperature is above the minimum temperature required for starting the engine. In special cases the Administration may waive this requirement for ships constructed before 1 July 1986;

CLAIFICATION The outboard motor fitted to a rescue boat should be tested weekly as required by regulation III/19.6.2. However, if the special characteristics of the motor would not permit it to be run other than with its propeller submerged for a period of 3 min, it should be run for such period as is prescribed in the manufacturer’s handbook.

3. the general emergency alarm system shall be tested.

7 Monthly inspections

Inspection of the life-saving appliances, including lifeboat equipment, shall be carried out monthly using the checklist required by regulation 52.1 to ensure that they are complete and in good order. A report of the inspection shall be entered in the log-book.

8 Servicing of inflatable liferafts, inflatable lifejackets and inflated rescue boats

8.1 Every inflatable liferaft and inflatable lifejacket shall be serviced:
Regulation 20

SECTION II - PASSENGER SHIPS

1. Passenger ships engaged on international voyages and not accommodable for not less than 50% of the total number of passengers on board, these ships shall be fitted with the following life-saving appliances:

2. Lifeboats in addition to the lifeboats required by the provisions of this Regulation shall be fitted with lifejackets as required by Regulation 32.

3. In addition to the lifeboats required by the requirements of Regulation 12, the passenger ships shall be provided with the life-saving appliances required by Regulation 12, subject to the condition that the lifeboats shall be fitted with lifejackets as required by the provisions of this Regulation.

4. All lifeboats and lifejackets shall be kept in a cooperation with the Authorities, which is competent to service them.

5. Periodical servicing of lifeboats and lifejackets shall be in accordance with the provisions of this Regulation and the requirements of the Authorities, which is competent to service them.

6. All lifeboats and lifejackets shall be kept in a cooperation with the Authorities, which is competent to service them.

7. Periodical servicing of lifeboats and lifejackets shall be in accordance with the provisions of this Regulation and the requirements of the Authorities, which is competent to service them.

8. All lifeboats and lifejackets shall be kept in a cooperation with the Authorities, which is competent to service them.

9. Periodical servicing of lifeboats and lifejackets shall be in accordance with the provisions of this Regulation and the requirements of the Authorities, which is competent to service them.

10. All lifeboats and lifejackets shall be kept in a cooperation with the Authorities, which is competent to service them.

11. Periodical servicing of lifeboats and lifejackets shall be in accordance with the provisions of this Regulation and the requirements of the Authorities, which is competent to service them.

12. All lifeboats and lifejackets shall be kept in a cooperation with the Authorities, which is competent to service them.

13. Periodical servicing of lifeboats and lifejackets shall be in accordance with the provisions of this Regulation and the requirements of the Authorities, which is competent to service them.
